

UU Aviation Recruitment Platform

Single-day campus drive • 700+ students • 4 interview rooms

careers.ews.aero

Live • Uttaranchal University • 2026

End-to-end campus drive automation

QR Registration

Student scans QR, verifies email with OTP, fills form.
Token issued instantly.

Token Queue

Recruiters call next student. Live display board shows
current token per room.

Interview Capture

Recruiter records rating + notes + decision. Result
emailed automatically.

Admin Console

Real-time stats, student search, CSV export, bulk
announcement emails.

Designed for capacity, built for speed

700+

Students supported

load-tested at 1,699 req/sec

Average registration

from QR scan to admit card

<10 sec

Recruiter decision capture

rating + notes + auto-advance

THREE GROUPS USE THE APP

Each gets a purpose-built screen

STUDENTS

/register

Scan campus QR, verify email,
submit form, receive token + PDF
admit card.

STAFF

/admin/login

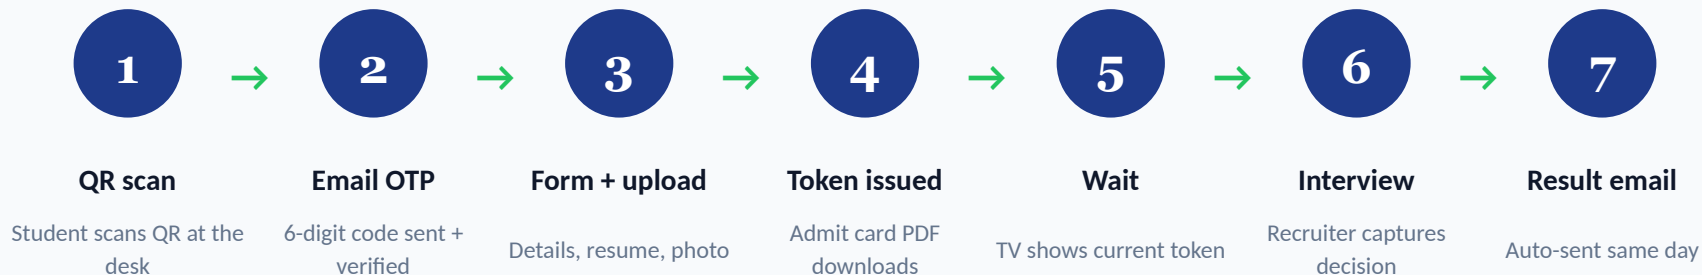

One login. Routes recruiters to
their room, admins to the console.

WAITING ROOM

/display

Mounted TV shows live queue.
Currently-called token per room,
big enough to read across the
room.

How a student becomes a hire

All actions audit-logged · all emails delivery-tracked · token allocation race-safe

Why students prefer this over paper forms

● No queue at the desk

Register from anywhere on campus via QR — desk staff are never the bottleneck.

● Digital admit card

Branded PDF with token number — print it or just carry it on your phone.

● Same-day decision email

Selected / shortlisted / rejected — by EOD, not weeks later.

● Email-verified identity

OTP locks the email — no duplicate, no fake submissions, no impersonation.

● Live token visibility

Mounted screen shows your token approaching — no shouting names across the room.

● Withdraw anytime

One email to aviation@ews.aero deletes your data — DPDP-compliant by design.

Every person sees only what they need

Role	Overview	Live Queue	Students	Bulk Email	Analytics	Decisions
SUPER_ADMIN	✓	✓	✓	✓	✓	✓
RECRUITER	—	—	—	—	—	✓
DESK_OPERATOR	✓	✓	—	—	—	—
EMAIL_MANAGER	✓	—	✓	✓	—	—

Roles are enforced server-side on every request — no client-side bypass possible.

One screen. Twelve interviews. Zero paperwork.

WORKFLOW

- Sign in with OTP → assigned room appears
- Click 'Call next token' → student profile loads
- Review form, academics, resume PDF inline
- Mark interview started (timer begins)
- Pick decision · rate 1-5 stars · add notes
- Submit → auto-advance to next student

BUILT IN

No-show recovery

Skipped tokens can be recalled later

Multi-room support

Each recruiter sees only their assigned room

Notes are searchable

Admin sees full interview history per student

Race-safe queue

Two recruiters never get the same token

Total visibility. Total control.

Overview

Live tiles • registered • waiting • in-progress • completed • selected

Live Queue

Filter by status • skip / recall / no-show • contextual actions per row

Students

Search • filter • paginate • drill into full record
+ interview + email log

Bulk Email

Custom subject + body • target by status / course / semester • batched send

Analytics

Hourly registrations • decision breakdown • recruiter throughput • duration

Runbook

Printable single-page operator cheat sheet for drive day

There are no passwords.

Every login is via a 6-digit code sent to the user's email — like banks do now.

HOW LOGIN WORKS

1. Open /admin/login
2. Type your email • click Send
3. 6-digit code arrives in inbox
4. Enter code • signed in for 12h

No passwords to remember, share, or leak.

SUPER ADMIN

bhupender@
eliteworldservices.com

Full access to every screen.

Login code arrives at this Gmail/inbox.

3-minute process per new account

1

Go to Supabase SQL editor

supabase.com/dashboard → uu-recruitment-prod → SQL editor
→ New query

2

Insert the new user

Paste the SQL template (right) · replace email + name + role · click
Run

3

Person logs in

They open /admin/login → enter their email → receive OTP →
signed in

```
SQL TEMPLATE
INSERT INTO "User"
  (id, email, "fullName",
   role, active, "createdAt",
   "updatedAt")
VALUES (
  gen_random_uuid(),
  'new.person@ews.aero',
  'Their Full Name',
  'RECRUITER',
  true,
  NOW(),
  NOW()
);
```

Roles to use: SUPER_ADMIN · RECRUITER · DESK_OPERATOR · EMAIL_MANAGER

Students	<code>careers.ews.aero/register</code>	<i>Put on QR codes at the desk</i>
Staff	<code>careers.ews.aero/admin/login</code>	<i>Sign in for any role</i>
Recruiters	<code>careers.ews.aero/recruiter</code>	<i>Auto-routed after login</i>
Desk operator	<code>careers.ews.aero/admin/queue</code>	<i>Full queue management</i>
Waiting room TV	<code>careers.ews.aero/display</code>	<i>Full-screen, F11 in browser</i>
Drive-day cheat sheet	<code>careers.ews.aero/admin/runbook</code>	<i>Print 5× before drive</i>

What happens on the day

BEFORE GATES OPEN

- Mount TV with /display in full-screen
- Print QR codes pointing at /register
- Each recruiter signs in at /admin/login
- Desk operator pulls up /admin/queue
- Print 5x /admin/runbook for desk

DURING THE DRIVE

- Students scan QR → self-register
- Recruiters call tokens one-by-one
- Decisions captured live
- TV updates every 3 seconds
- Skipped students can be recalled

WRAP-UP

- Export final CSV from /admin/students
- Send any bulk announcement emails
- Take screenshot of /admin/analytics
- Run nightly backup script
- Hand-off CSV to HR for offers

Built for this drive. Ready for the next 50.

Multi-campus expansion • WhatsApp notifications • AI résumé scoring • recruiter leaderboard • in-app staff management — all v2 ready when you are.
